### **ADFAS Launceston – Young Arts Guidelines**

*ADFAS Launceston is committed to providing opportunities for young people, under the age of 22 years, who wish to pursue Young Arts projects*

The term *Young Arts* encompasses literature, music, photography, performing and fine arts.

Young Arts projects funding applicants must fill out an *ADFAS Launceston Sponsorship Application Form*. Particular attention should be paid to Section 7, *Terms and Conditions*.

In general, ADFAS Launceston seeks to support projects:

- centering on creating or appreciating art;
- concentrating on projects and recipients based in the greater Launceston area, although applicants from Northern Tasmania will be considered; and
- lacking the capacity to attract institutional funding.

Preference will be given to projects benefitting a group rather than an individual.

The recipients of ADFAS Launceston sponsorship will provide a written account and photographs of the project within 30 days of its conclusion (parental consent must be obtained for photographs of underage people). A form is attached.

Recipients of grants are responsible for obtaining any necessary permissions for working with children.

Examples of Young Arts projects that might attract support are:

- Supporting art education specialist workshops for teachers.
- Visits to a gallery, museum or a performance - funding for schools.
- Sponsorship of a local youth art group, youth orchestra or theatre group.

This list is by no means prescriptive.

ADFAS Launceston may offer you a sponsorship amount that is less than your request. In that case it must be demonstrated to ADFAS Launceston that the project can be completed using supplementary funding from another source.
